

**Dorcy LED Twin Globe Lantern w/ Amber LED (41-3108)**

Dorcy Twin Globe is a portable Light Source using new technology High Flux 360° LED and is powered by D-Cell batteries. This is a 21st. century product which is an alternate to the oil lamps used in previous centuries. It a perfect light source for those who go for camping, mountain climbing or for the farmers and dairy farm persons when they do not have any other choice to get a sound proof light source. It is an ideal source of light in the third world countries which are facing electric power shortage.
